Turn-Key Point of Dispensing

The Disaster Management Systems' POD Vaccination/Dispensing Vest and Signage Workflow Kit is a best practices solution for high volume vaccination and/or medication dispensing to large groups of people. Supports the Strategic National Stockpile (SNS) receipt, distribution and dispensing program for local, regional, and state agencies. Add tables and chairs and you're ready to roll.

PRODUCT CATEGORY **Mass Vaccination**

Point of Dispensing (POD) High Volume Vaccination/Dispensing Vest & Signage Workflow Kit

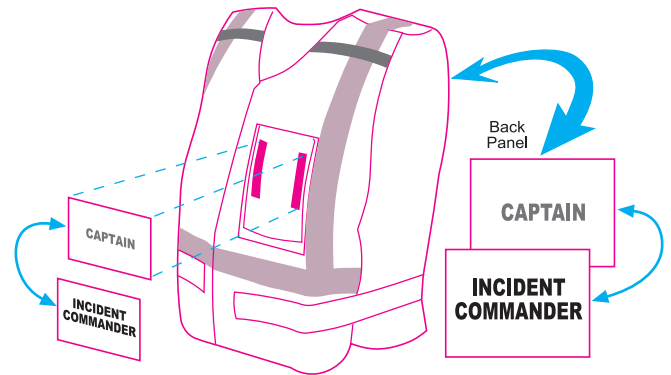

PRODUCT SUMMARY

Provides a quick deployment solution for mass vaccination and/or medication dispensing.

The Disaster Management Systems' POD Vaccination/Dispensing Vest and Signage Workflow Kit is a best practices solution for high volume vaccination and/or medication dispensing to large groups of people. Supports the Strategic National Stockpile (SNS) receipt, distribution and dispensing program for local, regional, and state agencies. Add tables and chairs and you're ready to roll.

Key Features	Benefits
Self-contained all-in-one kit	Provides fast deployment capability
Dynamic Vest System	Allows for seamless position change-out
Position responsibility sheets for key positions	Helps to ensure protocols are followed
TrakBAND® Triple Bar-Coded Wristbands	Efficiently track people receiving meds and/or vaccinations

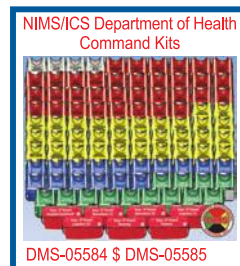

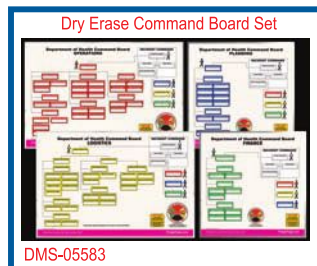

Dynamic Vest System

The DMS Dynamic Vest System allows you to change positions as the incident changes without having to change out the vest itself.
